

City of San Bruno Building Inspection

Posted Tag Explanations

A re-entry plan will be posted on the City website on Sunday, September 12, 2010 which will outline the process to re-enter.

The inspections to the Glenview homes were completed by Building Inspectors to verify that the homes are safe to occupy. The Police Department may cordon off areas close to the blast zone. You may not be able to occupy your home, even if it is safe to live in, until this area is approved to occupy. Information related to the cordoned off area will be given to you as available and posted on www.sanbruno.ca.gov.

Green-

There is no apparent damage to this home. It is OK to enter and live in this home if it has water. If you find any damage please call the Building Division at 616-7076 for an inspection.

Yellow-

There is some apparent damage or no water to this home, which may make it unsafe to live in. It is OK to enter to remove belongings. Acquire a permit, make repairs and call for inspections. Once the home has had it's final inspection and the utilities are working, it is safe to live in. If you find damage that appears to make the building unsafe to enter, call the Building Division at 616-7076 to schedule an inspection to make sure the home is safe to enter.

Red-

There may be extensive damage to this home, or it may not be apparent how damaged it is. A Building Inspector or Engineer will have to do a more extensive inspection to make sure the home is safe before anyone can enter or live in the home. Call the Building Division at 616-7076 to schedule an inspection.
